## Amendments to the Specification

Please replace the paragraph at page 7, beginning at line 26, under the heading <u>SUMMARY OF</u> <u>THE INVENTION</u> with the following:

According to the invent	tion, there is provided a hybrid maize plant, designated as 33A72,
produced by crossing two Pion	neer Hi-Bred International, Inc. proprietary inbred maize lines
GE492041 and GE568051. Th	nese lines, deposited with the American Type Culture Collection,
(ATCC), Manassas, Virginia 2	0110, have accession number [] PTA-1308 for GE492041
and accession number []	PTA-5526 for GE568051. This invention thus relates to the
hybrid seed 33A72, the hybrid	plant produced from the seed, and variants, mutants and trivial
modifications of hybrid 33A72	2. This invention also relates to methods for producing a maize
plant containing in its genetic r	material one or more transgenes and to the transgenic maize plants
produced by that method. This	s invention further relates to methods for producing maize lines
derived from hybrid maize line	e 33A72 and to the maize lines derived by the use of those
methods. This hybrid maize pl	lant is characterized by high yield with good brittle snap
resistance.	

Please replace the paragraph at page 51, beginning at line 2, under the heading <u>DEPOSITS</u> with the following:

Applicant(s) have Applicant has made a deposit of at least 2500 seeds of hybrid maize
plant 33A72 and inbred parent plants GE492041 and GE568051 with the American Type Culture
Collection (ATCC), 10801 University Boulevard, Manassas, VA 20110-2209 USA, ATCC
Deposit Nos. [, and] PTA-5457, PTA-1308 and PTA-5526,
respectively. The seeds deposited with the ATCC on [,and]
September 9, 2003, February 4, 2000 and September 15, 2003, respectively were taken from the
deposit maintained by Pioneer Hi-Bred International, Inc., 800 Capital Square, 400 Locust
Street, Des Moines, Iowa 50309-2340, since prior to the filing date of this application. Access to
this deposit will be available during the pendency of the application to the Commissioner of
Patents and Trademarks and persons determined by the Commissioner to be entitled thereto upor
request. Upon allowance of any claims in the application, the Applicant(s) Applicant will make
available to the public, pursuant to 37 C.F.R. § 1.808, sample(s) of the deposit of at least 2500
seeds of hybrid maize plant 33A72 and inbred parent plants GE492041 and GE568051 with the

American Type Culture Collection (ATCC), 10801 University Boulevard, Manassas, Virginia 20110-2209. This deposit of seed of hybrid maize plant 33A72 and inbred parent plants GE492041 and GE568051 will be maintained in the ATCC Depository, which is a public depository, for a period of 30 years, or 5 years after the most recent request, or for the enforceable life of the patent, whichever is longer, and will be replaced if it becomes nonviable during that period. Additionally, Applicant(s) have Applicant has satisfied all the requirements of 37 C.F.R. §§ 1.801 - 1.809, including providing an indication of the viability of the sample upon deposit. Applicant(s) have Applicant has no authority to waive any restrictions imposed by law on the transfer of biological material or its transportation in commerce. Applicant(s) do Applicant does not waive any infringement of their rights granted under this patent or under the Plant Variety Protection Act (7 USC 2321 et seq.).
